HALF MOON LIMESTONE TROUGH

\$880

c. 1800 • China • Limestone • Collection #TLC066

W: 14.5" D: 9.0" H: 7.0"

Once used on a provincial Chinese farm to hold water or animal feed, this early 19th-century stone trough is celebrated today for its organic form and rustic authenticity. Hand-carved from solid limestone, the trough has a half moon form with a deep interior basin. The chiseled surface has weathered with time, developing stunning asymmetry and color variations. Drilled with a 1" drainage hole, this petite water trough is ideal as a garden planter, a decorative water feature, or a stone sink basin, just the right size for washing hands in a small powder room.
