PETITE STONE TROUGH

\$488

c. 1800 • China • Limestone • Collection #TLC069

W: 10.0" D: 9.25" H: 6.25"

Once used on a provincial Chinese farm to hold water or animal feed, this early 19th-century stone trough is celebrated today for its organic form and rustic authenticity. Hand-carved from solid limestone, the petite trough has a shallow, rectangular form with stunning asymmetry. The raw surface of the stone has softened with time, developing rounded edges and a smoother texture from centuries of use, all while still maintaining its original shape. Drilled with a 1" drainage hole, this stunning trough is ideal as a statement garden planter or unexpected sink basin.
