MARBLE TOP SIDE TABLE

\$1,280

Mid-20th Century • United States • Marble, Metal • Collection #CFC708A

H: 27.5" Dia: 21.75"

This mid-century garden table has an unusual design that recalls the angular geometries of Art Deco furniture and the bold shapes of Post-Modern design. The round side table features a white marble top and a pedestal base of thin metal rods criss-crossed around a central post and spherical accent. This support post is painted with green pigments in imitation of verdigris oxidation and a metal leaf finish applied to the base imitates an aged patina.

From the collection of Frances and Gary Comer.

Table top edge is finished with metal foil.
