CAST IRON TEA POT

\$480

c. 1900 • Northern China, China • Cast Iron • Collection #CAJ001B

W: 9.0" D: 7.5" H: 13.0"

In China, tea connoisseurs believe that using high-quality materials and supplies enhance the flavor of the beverage. This sculptural teapot was cast in the early 20th century out of iron, which absorbs heat evenly and thus more completely infuses the water with the complex, subtle flavor of the leaves.
