HAND-CARVED TIGERMAN FOOTED ZHENZHU BASIN

\$980

Contemporary • Jiangsu, China • Stone • Collection #B6301

H: 8.25" Dia: 16.25"

This footed stone basin was carved by hand out of a stone indigenous to Southern China. The stones collected from the bottom of this lake have held a prized place in Chinese gardens and in scholars' studios for many generations. A collector of unusual 18th century stone worked closely with local artisans to design this modern basin—a beautiful interpretation of this ancient tradition.
