LARGE NATURAL PRESERVED SPUN WEB

\$188

2015 • United States • Glass • Collection #CJB003T

Dia: 12.0"

One of the most ethereal features of the natural world preserved for all time under glass. This genuine spiral orb web spider has been sprayed with a fine metallic coating, and mounted on a black background, which is protected by beveled glass. The artwork is entirely unique as each time a spider creates a web it can never be precisely duplicated.
