PROVINCIAL SCOOP

\$68

c. 1900 • China • Pine • Collection #BJAA074II

W: 7.0" D: 15.75" H: 3.25"

Over a century ago, someone held this carved wooden scoop in their hand everyday as they measured out rice or other grains. The pinewood has a rich patina that only comes from age, and the wood of the handle is beautifully mottled from all the years of use. Tools like this were used until they broke and had to be discarded, so finding one in such excellent condition makes it a rare collectors item.
