RECESSED LEG SQUARE TABLE

\$4,680

c. 1850 • Hebei, China • Northern Elmwood • Collection #BJFF008

W: 35.75" D: 35.75" H: 32.75"

The subtle recessed position of the legs of this 19th-century square table contributes to its refined proportions and allows the top to seemingly float. Closely related to architectural post-and-beam construction, the design of this table is in the Ming manner. We see this rich northern elmwood table bringing great character to an entrance hall or cornered between two sofas.
