In an exclusive collaboration with PAGODA RED, Chicago artist the bms. adds a contemporary twist to our collection of one-of-a-kind African art objects. Embellishing with silver and gold tacks, the bms. accentuates the sculptural form of this wall-mounted African mask, guided by geometric linework. This decorated mask now blends the imaginative forms of tribal art with the bold layering of maximalist aesthetics. Marked by the artist's golden touch, the studded mask catches the light beautifully from every angle.
