SLATTED TURN CHAIR

\$980

Early 20th Century • United States • Wood, Iron • Collection #CFC395

W: 13.75" D: 14.0" H: 36.0"

This unusual early 20th-century chair can be raised or lowered with just a turn of the seat. A chair in two parts, the slatted seat and high back are connected to the square base by a threaded iron rod and changes in height as its turned. Turned wood elements add subtle decoration and a dark brown finish accentuates the chair's curious form.

From the collection of Frances and Gary Comer.
