## "PROTECTOR TWO" FOLK ART CROW SCULPTURE

**\$780**

United States • Paint, Wood • Collection #CAN056

W: 13.5" D: 17.25" H: 9.75"

Richly textured with whimsical appeal, this late 20th century wooden crow is a delightful example of naive American sculpture. Poised mid-caw, it is hard to tell whether this crow has just landed or is ready to burst into flight. As though life materialized from a pile of scrap wood and metal, it has a palpable vitality and defiant exuberance.
